26 Jan 2021	1.0	First version for tax year 2021.

### 1 INTRODUCTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [General description for electronic filing of information returns \(pdf\)](#) (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

### 2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

The payors that make payments to nonresident taxpayers must prepare an annual information return, detailing the amounts paid in “other” categories (the D1 and D2 types of payment) as a data file described in this guidance, giving a specification for every beneficiary. You must file your information return electronically if more than five (5) beneficiaries received payments from you.

However, the requirement to use e-filing does not concern natural persons and estates of deceased persons unless they operate a trade, business, or an agricultural farm or a forestry farm.

Read more about resident and nonresident tax liability in the Tax Administration's [Tax residency and nonresidency and residency for purposes of the relevant tax treaty](#). For additional information and guidance on the tax treatment of non-residents, visit [International and cross-border circumstances \(tax.fi > detailed guidance > international tax situations\)](#).

To read more about annual information returns, go to [Forms \(tax.fi > About us > Contact us > Forms > Annual information\)](#).

To check the method of identification required by this information flow, the required role and the place in the flow where authorisations are checked, go to [Methods of sign-in, roles and rights to represent organisations \(Ilmoitin.fi > Instructions and templates > Methods of sign-in, roles\)](#).

### 3 MAKING CORRECTIONS

For year-specific instructions for making corrections, go to [Annual information returns \(tax.fi > About us > IT developers > Data format specifications > Making corrections to electronically filed submittals of information returns\)](#).

Please note the special requirements regarding this information flow:

We recommend that when making corrections, filers use the same information flow, and the same software, as they used for the original submittal.

### 4 PERIOD OF VALIDITY

The file formatting and checks according to this specification come into force on 8 June 2021 and continue to be in force until a new version of the specification is released.

For information about deadlines for filing, see the year-specific schedule on [IT developers \(vero.fi > Verohallinto > Ohjelmistokehittäjät > Aikataulu vvvv\)](#). The schedule is available in Finnish and Swedish.

## 9 DESCRIPTIONS OF THE TYPES OF PAYMENT

**D1** Other payments (e.g. scholarships)

**D2** Other types of yields on assets saved under a long-term savings agreement

## 10 CHECK YOUR FOREIGN TIN

The online checking service TIN on Europa is free of charge; it offers a way to check the format of a foreign identity code (personal ID codes etc.). It does not give confirmation of any individual beneficiary's identity, or of the actual existence of the code entered in the country of issue.

The website is multi-lingual with 22 language options. It also provides additional information about the identifiers used in different countries.
